A modern design crafted from refined, premium aluminium.

Supreme Plus Adjustable Riser Stand for Laptops

desire2
£69.99

Ergonomic design: Raises laptop screen up to 5.9 inches (eye level) for comfortable viewing, promoting good posture and reducing strain on your eyes and neck.

Super-strength: Strong Construction enables compatibility of most Laptops from 11-17" with a superior weight bearing capacity.

Anti-slip rubber pads: Rubber silicone pads help secure your laptop, and anti slip feet prevent slippage even on shiny surfaces.

Increases cooling and airflow: The open design increases cooling and airflow around the laptop whilst working.

Optimise desk management: Cable access and compartment to store keyboard.

Precision engineering

Crafted from premium aluminium

A minimalistic, modern design crafted out of a refined, premium silver anodised aluminium alloy that stylishly complements computers and products such as Macs, iMacs, and MacBooks. Silver anodising is an electrochemical process that converts a metal surface into a decorative, durable, corrosion-resistant, anodic oxide finish. Anodised aluminium is considered environmentally safe, producing few, if any, harmful effects on land, air, or water.

Tactile anti-slip rubber pads

The Supreme Plus Stand features several built-in silicone rubber pads placed tactically on the base and top surface to keep your Laptop securely in place and prevent it from falling. Silicone rubber is a great means of providing a non-slip quality to a surface; their anti-slip, grip-like qualities ensuring that your stand will not only stay fixed, but will also leave no residue when removed.

Ergonomically designed

This product is ergonomically certified to improve posture and maintain long-lasting health; with the ability to achieve a sufficient viewing elevation that reduces strain on your back and neck. As outlined by The Chartered Institute of Ergonomics and Human Factors, back and neck pain, headaches, shoulder and arm pain are common computer-related injuries. Such muscle and joint problems can be caused or made worse by poor workstation (desk) design, bad posture and sitting for long periods of time.

Product description

Perhaps you are the kind of person who desires perfection. Perhaps you long for an object that seamlessly integrates into your living space; with a kind of finish that allows your fingers to lightly brush over sleek, refined aluminium.

Perhaps you are also the kind of person who desires performance, So you strive for results: both in superior, long-lasting build quality and compact desk management to optimise your workspace.

And if you are - Then are you also the kind of person who, above all else, desires protection? Protection of your device, and protection of yourself...?

Then this - is the Desire2 View My Screen At Home Supreme Plus Adjustable Riser presented in sleek, refined aluminium.

With it's ergonomically designed elevation providing you ultimate viewing comfort through **two full angles of rotation allowing the riser to achieve eye level heights up to 5.9"**, the ability to flat pack for easy transportation, and a compact space underneath for desk management and easy access, the Desire2 View My Screen At Home Supreme Plus Adjustable Riser could be your ultimate object of desire.
