

Adjustable Elevator Riser - Silver [U3]

 Adjustable height

The stand can easily be raised or lowered for ultimate viewing comfort

 Ergonomic design

An optimal viewing elevation improves posture and alleviates back pain

desire2
£39.99

Ergonomic design: 5 levels of adjustable height elevation for comfortable viewing, promoting good posture and reducing strain on your eyes and neck.

Strong construction: Strong Construction enables compatibility of up to 14 inch Laptops with weight bearing capacity of 24kg

Anti-slip rubber pads: Rubber silicone pads help secure your laptop, and anti slip feet prevent slippage even on shiny surfaces.

Increases cooling and airflow: The open design increases cooling and airflow around the laptop whilst working.

Crafted from premium aluminium

A minimalistic, modern design crafted out of a refined, premium silver anodised aluminium alloy that stylishly compliments computers and products such as Macs, iMacs, and MacBooks. Silver anodising is an electrochemical process that converts a metal surface into a decorative, durable, corrosion-resistant, anodic oxide finish. Anodised aluminium is considered environmentally safe, producing few, if any, harmful effects on land, air, or water.

Tactile anti-slip rubber pads

The Stand features several built-in silicone rubber pads placed tactically on the base and top surface to keep your Laptop securely in place and prevent it from falling. Silicone rubber is a great means of providing a non-slip quality to a surface; their anti-slip, grip-like qualities ensuring that your stand will not only stay fixed, but will also leave no residue when removed.

Ergonomically designed

This product is ergonomically designed to improve posture and maintain long-lasting health; with the ability to achieve a sufficient viewing elevation that reduces strain on your back and neck. As outlined by The Chartered Institute of Ergonomics and Human Factors, back and neck pain, headaches, shoulder and arm pain are common computer-related injuries. Such muscle and joint problems can be caused or made worse by poor workstation (desk) design, bad posture and sitting for long periods of time.

Product description

Perhaps you are the kind of person who desires perfection.

Perhaps you long for an object that seamlessly integrates into your living space; with a kind of finish that allows your fingers to lightly brush over sleek, refined aluminium.

Perhaps you are also the kind of person who desires performance, which means you strive for superior, long-lasting build quality in a fully adjustable, ergonomic design.

And if you are - Then are you also the kind of person who, above all else, desires protection? Protection of your device, and protection of yourself...?

Then this - is the Desire2 View My Screen At Home Elevator Riser presented in sleek, refined aluminium.

With it's ergonomically designed viewing elevation providing you ultimate viewing comfort through 5 levels of adjustable height, the Desire2 View My Screen At Home Elevator Riser could be your ultimate object of desire.
